

GORNELL BRUSH

QUALITY | SERVICE | INTEGRITY

BRUSHES FOR:

INDUSTRY AND MAINTENANCE

Long-lasting, efficient cleaning tools designed for a wide range of industrial and maintenance industries

GORNELL BRUSH

QUALITY | SERVICE | INTEGRITY

Gornell Brush is a high-speed, automated manufacturer of industrial and maintenance brushes. We specialize in innovative staple-set technologies and manufacture many styles and types of brushes, from tiny detailing tools to large rotary discs.

HIGH QUALITY BRUSHES WITH YOUR NEEDS IN MIND

Gornell Brushes are manufactured from the highest quality materials available by experienced and highly skilled craftsmen. We continually strive to improve our products through engineering developments and new and improved manufacturing methods and procedures. Gornell Brush offers a wide selection of standard brushes for industry and maintenance, including specialized brushes for the welding and printing industries.

Custom Brush Design

The design and manufacture of customized brushes has been an integral part of our business since the beginning. Using our modern CNC equipment, we have the ability to manufacture almost any brush for special applications.

Personalized Services

Gornell Brush also offers personalized in-house services to save your company time and money. These services include in-house engineering and design, prototyping, custom manufacturing, custom packaging and private labeling.

PROUDLY MADE IN AMERICA

Gornell Brush is one of the most respected companies in the brush industry. The company's products have been proudly manufactured in Chicago, Illinois since 1892.

Our customer service staff is ready to assist you between the hours of 7:30 a.m. and 4 p.m., Central Time, at **773.489.2330**.

BRUSHES FOR INDUSTRY AND MAINTENANCE

Whether you need a large order of custom brushes or an order of standard brushes, Gornell Brush can meet your needs. Items in this catalog are available in standard package quantities or multiples of standard packaging. If the product you are looking for is not shown, please contact us so we may assist you.

CUSTOM BRUSHES

The creation of special brushes is an integral part of our overall business effort. We use our modern CNC equipment along with our experience and engineering knowledge to create both large and small production orders of your special brush.

PAGE 4

FINE WIRE HAND SCRATCH BRUSHES

Our fine wire hand scratch brushes are filled with many types of fine brush wire, including stainless steel, brass, bronze, nylon and horsehair. These brushes are narrow with tightly-packed bristles, which make them ideal for cleaning inaccessible and hard-to-reach spaces.

PAGE 5

STEEL WIRE HAND SCRATCH BRUSHES

Our steel wire hand scratch brushes are heavily filled with specially tempered steel brush wire. We securely staple the tufts into solid hardwood, foam, or plastic blocks. Our smoothly-finished handles are shaped for more comfortable brushing. The heavy fill and straight, even trim provides a uniform brushing face, making them excellent industrial tools for general cleaning.

PAGE 8

WELDERS AND PLATERS HAND BRUSHES

Keep your machinery clean with our welder and plater brushes. These are specially designed for general cleaning in the plating and metal finishing industry.

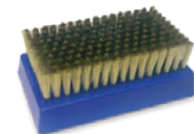

PAGE 11

PRINTING AND GRAPHIC ARTIST BRUSHES

These brushes are manufactured using only the highest quality materials. We specialize in anilox roll brushes made from fine wire stainless steel and brass.

PAGE 12

ROTARY POWER BRUSHES

Rotary power brushes are a versatile, industrial tool used mostly in production by a wide cross-section of industries. Manufacturers recognize rotary power brushes to be an efficient device, cutting manufacturing costs and improving product performance.

PAGE 16

GENERAL PURPOSE BRUSHES

Furnish your maintenance department with the most efficient, economical cleaning tools available. Our selection of general purpose brushes are designed and tested for efficient industrial use in scrubbing and cleaning.
